C2	All into the center and back. Face your partner, set to your partner, and pass by the right. The dance begins again with new partners, and men weaving counterclockwise.

Notes: It may help to start the first walkthrough with the "approach." Back everyone up one place, set to this PREVIOUS Neighbor, and pass by the right to face your first P. ## Beach Spring

Formation: 4-couple longways

Author: Leslie Lassetter

Tune: "Come and Find the Quiet Center", traditional tune attributed to BF White. (Barnes Red, 8)

Key/time signature: D major, 3/2

Video: <https://www.youtube.com/watch?v=IXuVee9KpKo>

### Teaching:

A1	Hands four at the top and bottom of the set. Circle once around.
A2	Lady 2 and Man 3 pass left shoulders diagonally across the set, and lead their respective groups of four in a serpentine single file line, ending proper and directly across from partner. The set is inverted and proper (4-3-2-1).
B1	Top couple (original 4s) casts to second place while second couple (original 3s) moves up. (3-4-2-1). Then the two middle couples (original 4 and 2) cast down one place in tandem while the bottom couple (original 1s) moves up the set to second place. (3-1-4-2). Face across to partner.
B2	Beginning with partner across the set, four changes of rights and lefts.

### Notes:

Before beginning the serpentine, remind Lady 2 that she ends in Lady 3's spot. Same for Man 3 with respect to Man 2's spot. It may also help the first time through to have each foursome hold hands or put a hand on the shoulder of the dancer immediately in front as the dancers follow the line leader.

The music should be fast enough that the initial circle flows directly into the serpentine figure – the circle unwinds and reforms seamlessly. If the music is too slow, there's a pause after the circle while the line leader waits for A2..

Remind everyone that the couple who casts twice (original couple 4) DOES NOT overtake the couple who casts once (original couple 2).

### Prompting

A1 Circle LEFT once around.

A2 Lead your line. All proper.

B1 TOP COUPLE cast, next couple move up. Middles tandem cast, bottoms lead up. Face your partner.

B2 4 changes – right, left, right, left. Take hands in groups of four.

From here, half a hey passing LEFT shoulders. (First corners follow the same sex neighbor across the set – ending PROPER and PROGRESSED – 2s above. <b>GYPSY your partner once around</b> (see note below).

NOTE: In Colin Hume's original dance, the final 8 counts are a single file circle clockwise. Given the constraints of the hall, and with Colin Hume's written permission to do so, I have changed the last move to a PARTNER GYPSY once around. This should minimize bumping into people. Mr. Hume has graciously endorsed this change and has included it on his web page as an acceptable variant.

Teaching note: There are lots of turn singles in this dance. Any of them may be omitted without consequence if the dancers find them hard to complete on time or disorienting (or both).

Couple 1

Couple 4    ACTIVES    Couple 2

Couple 3

### Teaching

A1	The head couples and the ACTIVE couple do a full mirror hey (top couple splits the ACTIVES to begin), <i>WHILE</i> the side couples side (Sharp or curvy siding), set, and turn single.
A2	ACTIVES separate – ACTIVE LADY heys for three with the side couple nearest her, passing the lady by the LEFT to begin. The ACTIVE MAN heys for three with the side couple nearest him, passing the man by the RIGHT to begin, <i>WHILE</i> the head couples side, set and turn single. ACTIVE COUPLE end the hey facing each other in the center of the set.
B1	Grand Square plus one: The heads and sides do a normal grand square (begin with sides facing each other and head couples facing the head couple across the set) to end where they began. The ACTIVES are facing each other as the Grand Square begins. They back out to the side, and face UP (toward the music). They back down (away from the music) until they are at the bottom corners of the square, turn, meet each other in Couple 3's original position, and lead up to their original position.
B2	Progression: In "Skater's hold" the ACTIVE couple changes places with Couple 1, MEN passing LEFT shoulders. Couple 1 changes places with Couple 2; Couple 2 changes with Couple 3; Couple 3 changes with Couple 4. Couple 4 is the new ACTIVE COUPLE, and the former Actives, now Couple 1, initiate the mirror hey for the next round.
